

FCC,

I am writing on behalf of KLOVE radio and the impact upon their network that changing from translators to LPFM would have.

I listen to KLOVE because it is a positive and encouraging station and gives me information about positive and encouraging events in my area.

There are more than enough not positive and not encouraging radio stations in my area: so KLOVE needs to remain in an effort towards balance.

There are many stories of taxi cab drivers, police officers, and counselors playing KLOVE in their vehicles and business and the amazing calming affect it has on the people they deal with. Also, many businesses play KLOVE to be heard by their customers, which makes for a more relaxed and positive environment at that place of business.

To be able to receive the KLOVE signal while driving, the translators and critically important. There are several stories of people who listen to KLOVE in order to calm them selves in today's hectic traffic.

Thank you for allowing KLOVE to remain a positive and encouraging influence in my life and for my community.

Michael Vogt
